PROFESSIONAL SUMMARY

Computer and Information student at Benha University with a strong foundation in web development and programming. Completed the NTI Full Stack PHP Training and currently training in Full Stack .NET through DEPI, building hands-on experience across both front-end and back-end development. Serves as Vice Head of Front-End at GDGoC Benha University for the 2026–2027 season. Passionate about Full Stack Web Development, front-end and backend development, and continuous technical growth, with a growing portfolio of practical projects.

EDUCATION

Benha University — Faculty of Computers and Information *Egypt*
Computer Science / Computers and Information Student
Expected Graduation: 2027

TRAINING & CERTIFICATIONS

NTI — Full Stack PHP Training *Completed*
Completed intensive hands-on training covering the full web development stack, applying concepts through practical, guided projects.

- HTML5, CSS3, Bootstrap, JavaScript
- PHP, MySQL, Database Fundamentals
- Git & GitHub, Responsive Web Design

DEPI — Full Stack .NET *In Progress*
Currently training in Full Stack .NET development, covering C#, ASP.NET Core, and related technologies through practical, guided learning.

LEADERSHIP EXPERIENCE

GDGoC Benha University — Vice Head of Front-End *2026–2027*

TECHNICAL SKILLS

Programming Languages: C#, C++, PHP, JavaScript
Front-End: HTML5, CSS3, Bootstrap, Responsive Web Design
Back-End: PHP, .NET / ASP.NET Core
Web Development: Web API, MVC
Databases: SQL Server, MySQL
Programming Concepts: Object-Oriented Programming (OOP)
Tools: Visual Studio, Visual Studio Code, Git, GitHub, XAMPP

PROJECTS

Responsive Portfolio Website — Portfolio Link
Designed and developed a personal portfolio website to showcase skills, services, and featured projects with a modern, visually polished interface.
Technologies: HTML5, CSS3, JavaScript, Bootstrap

- Built fully responsive layout adapting seamlessly across mobile, tablet, and desktop screens
- Implemented animated sections and interactive skill/progress indicators
- Structured clean, semantic markup for maintainability and fast load times

Registration/Login System
Developed a secure user authentication system enabling account registration, login, and session management.
Technologies: PHP, MySQL, HTML5, CSS3

- Implemented server-side form validation and secure credential handling
- Designed relational database schema for user accounts using MySQL
- Managed user sessions to control access to protected pages

Student Management System
Built a database-driven web application to manage student records, supporting create, read, update, and delete (CRUD) operations.
Technologies: PHP, MySQL, HTML5, CSS3, Bootstrap

- Designed normalized MySQL database to store and organize student data
- Developed dynamic PHP pages for adding, editing, and deleting student records
- Applied Bootstrap for a clean, responsive administrative interface

To-Do List Application
Created an interactive task management tool allowing users to add, complete, and remove tasks in real time.
Technologies: JavaScript, HTML5, CSS3

- Implemented dynamic DOM manipulation for real-time task updates
- Applied event-driven JavaScript logic for adding and deleting tasks
- Designed a clean, minimal, responsive user interface

SOFT SKILLS

Problem Solving • Teamwork • Communication • Fast Learner • Self-Learning • Time Management • Attention to Detail • Adaptability
